The exhibit highlights artwork and biographies of jazz artists that were born or lived in New Jersey — such as Art Blakely, Count Basie, Dizzy Gillespie and Sarah Vaughan. The art and bios appear in a new Chicken Bone Beach Historical Foundation coloring book.

The CBBHFI worked on the drawings with the children and teens from the Atlantic City Library's Summer Reading Program and comic drawing classes (taught by Marvel/DC Comics artist Joe Del Beato).

The exhibit will be on display at the library through March 30.
